EDUCATION

High school
Mar 2021 - Present
GHSS Kulyari buner

Asmat Akhtar
PYTHON DEVELOPER

SUMMARY

A hardworking and passionate job seeker with strong organizational skills eager to secure an entry-level job position where I could learn under working professionals to gain knowledge and improve my skills simaltaneously by giving some positive input to the company. Also an Enthusiastic Cloud Computing learner eager to contribute to team success through hard work, attention to detail and excellent organizational skills. Motivated to learn, grow and excel in Cloud Industry.

EXPERIENCE

Python Programming   **Jul 2022 - Present**
Infotech Private Limited

- Developed and implemented Python programs and scripts to automate tasks and improve efficiency in various projects
- Worked with data scientists and analysts to build and manipulate large datasets using Python
- Collaborated with software engineers to develop and maintain Pythonbased web applications and APIs
- Implemented data processing and data analysis algorithms using Python libraries such as NumPy, Pandas, and SciPy
- Created and maintained databases using Pythonbased frameworks like Django and SQLAlchemy
- Developed and executed unit tests and integration tests for Python code to ensure proper functionality
- Troubleshot and fixed bugs and issues in Python codebase through debugging and code refactoring
- Integrated Python code with other programming languages and technologies as required
- Utilized Pythons objectoriented programming principles to design and create reusable code components
- Created and maintained technical documentation for Python code, including specifications and user guides
- Stayed updated with the latest trends and advancements in the Python programming language and its ecosystem

Python Programming Intern   **Nov 2023 - Dec 2023**
Internpe

- Assisted in the development and maintenance of Pythonbased applications and scripts.
- Collaborated with the development team to design and implement new features and functionality.
- Debugged and resolved software defects and issues, troubleshooting and optimizing code as necessary.
- Conducted unit testing and assisted in the creation and execution of test plans.
- Assisted in documenting software design, specifications, and development processes.
- Worked on tasks related to data analysis and visualization using Python libraries such as pandas and matplotlib.
- Participated in code reviews and provided constructive feedback to team members.
- Assisted in the analysis and improvement of existing code performance and efficiency.
- Explored new technologies, frameworks, and libraries to enhance the capabilities of the Python applications.

PROJECTS

Online best video downloader   **Mar 2025 - Present**
Programmer

- it is a best videos,playlists downloader it download videos and playlists from facebook,youtube,instagram,twitter and other all sites
